

嘉義市災害防救深耕第 2 期計畫-105 年後續擴充

摘要

今(105)年度為嘉義市災害防救深耕第 2 期計畫執行之第二年，主要工作均延續第一年之成果並且持續強化內容，首先於檢討災害防救分工與運作機制部分已修訂嘉義市災情查通報流程，將災情查通報管道新增平時之線上陳情系統與災時之災情報報 APP，並利用教育訓練對市府與公所人員進行教學；另分析民間團體防救災能量，透過會議與問卷了解各團體與市府簽訂救災支援協定之可行性。

今年度亦持續蒐集歷史災例，分析轄區災害潛勢，並進行淹水與坡地易致災原因調查，共 54 處，亦已研擬改善策略供相關單位參考。而為健全嘉義市防救災資源，本計畫持續更新相關單位資料，並繪製 148 張防災地圖，部分防災電子地圖已印製成實體並掛設於公所牆面，並上傳至相關網站供一般民眾查閱或下載，提高民眾對防救災之認知。

本計畫今年亦辦理 6 場教育訓練，藉此持續培育相關人員防救災素養，並提供新進人員教育訓練機會，且更新嘉義市轄內 47 處避難收容處所資料，重新分析其開設層級、適災性與收容能量。此外於應變中心開設時，本計畫亦由專業人員協助災害情資研判，另今年度持續產出防災實體物品供宣導使用，包括防災小手冊 800 份、露營燈 250 個等。期望透過本計畫健全嘉義市之防救災能量，將防災知識深耕至各層級人員。

The Second Period project of Disaster Prevention and Protection for Chiayi City

ABSTRACT

This year is the second year of the Second Period project of Disaster Prevention and Protection for Chiayi City. Main items of this year project are sustained from results of the previous one and strengthened the content in this year. First, task assignment and working mechanism of disaster prevention and protection are reviewed. The way to ascertain and notify damage news by an online system and smartphone app is included in the mechanism. Officers worked in Chiayi City and district offices have been trained for using these tools to response disaster damages. Besides energy of civil groups are also analyzed through the meeting and questionnaires to make sure practicality of signing mutual support agreement related to disaster prevention and protection among local government and themselves.

Disaster examples are also collected and disaster potential is analyzed in this year. Furthermore, fifty-four flood-prone and landslide-prone areas are investigated to make sure the damage causes. In this project, modification strategies are listed for related organizations as well. For integrating disaster prevention and protection resources in Chiayi City, this project upgrades data of manpower, material, and the ability of disaster prevention and draws 148 electric hazard maps. Parts of those maps were printed as real paintings for hanging up on the walls of district offices and uploaded to websites for people to download. It is predicted to raise people's knowledge about disaster prevention and protection.

Meanwhile, six training courses are held to train up related personnel and supply education opportunities for new employees. Basic

date of forty-seven shelters in Chiayi City is updated and re-analyzed the class, suitability, and capacity. When Chiayi City emergency operation center is operated, this project supplies professional personnel to determine disaster information. For advertising disaster prevention knowledge, 800 handbooks and 250 camping lights are produced this year. It is anticipated to integrity disaster prevention and protection energy of Chiayi City through this project and spread knowledge for people.
